

Hill Briefing: Diversity and Innovation

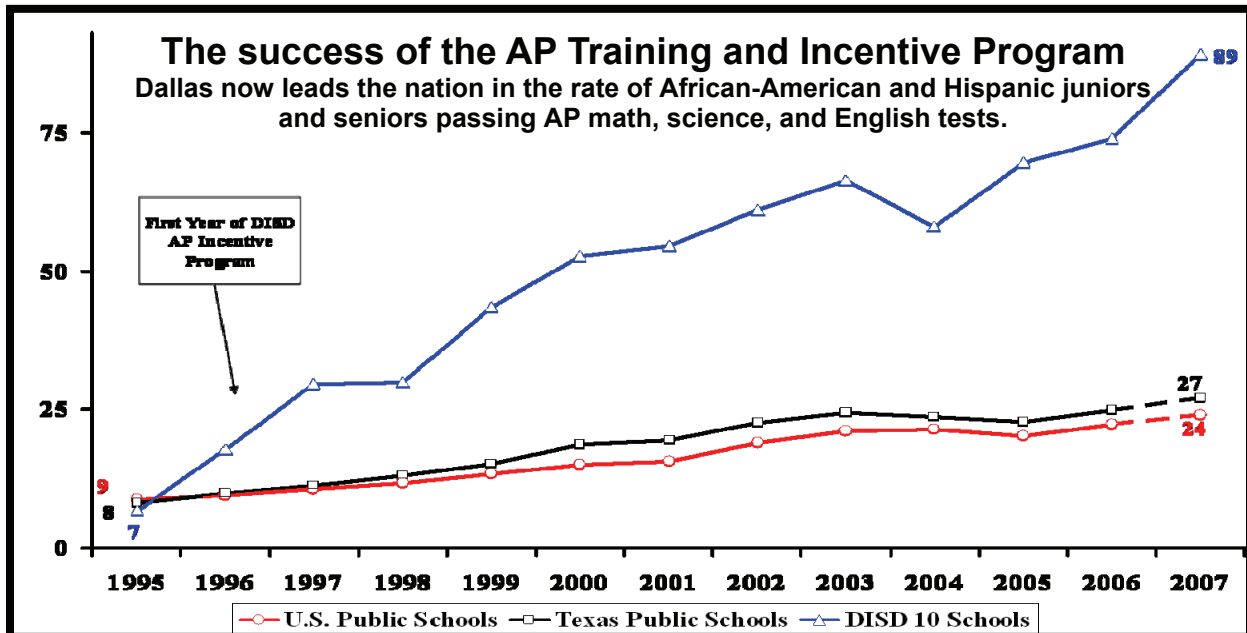

Improving Minority Opportunity In Growing STEM Fields

What: Briefing from the National Math and Science Initiative (NMSI)

When: Thursday, Feb. 14 from 3:30 - 4:30 PM

Where: 2105 Rayburn

Speaker: Tom Luce, CEO of NMSI and former Assistant Secretary at the U. S. Department of Education

About NMSI

- Launched by leaders in American business, education, and science to improve the nation's competitiveness by scaling up programs proven to have a significant impact on math and science education.
- Currently expanding two such programs, an Advanced Placement Training and Incentive Program and UTeach, a secondary math and science teacher preparation program.

Why attend? Learn about:

- The success of our programs for minority students.
- How non-profits and universities in your district can receive grants to implement these successful programs.
- How America COMPETES can support further expansion of proven programs.
- How we are using private funds to leverage the federal investment.
