

**Title I  
Family Engagement and  
Community Outreach**

# OUR TITLE I GOAL

The Title I Family Engagement and Community Outreach Team works to cultivate the conditions for all students and their families to receive equitable access to academic and social supports; enrichment opportunities; and intervention services that support personal development and growth of the entire family through promoting a connected community to work **together** to achieve this goal.

# HOW YOU CAN HELP

Title I is the largest federal program established to ensure that ALL children have fair, equitable access and opportunity to obtain a high quality education by requiring high levels of family and community engagement; providing innovative and strategic supports, as well as enriching resources for both social and academic success.

## JOIN

Join the Title I District Parent and Community Advisory Council

## REGISTER

Register to become a CMS Volunteer within a Title I School. Consider becoming a mentor or navigator.

## GIVE

Give to the CMS Connected Community Education Fund under the Charlotte-Mecklenburg Schools Foundation. Federal Title I funding is categorical which restricts allowable expenditures. Some of those restrictions limit the ability of the school to provide all of the enrichment or intervention activities that they want to provide to students. Giving to this fund will allow schools to better serve their students and families.
